

CURRICULUM VITAE

Name: Jon Stace B.Sc. MCAD MCTS MCPD **Company:** Management Systems Modelling Ltd
Nationality: British **Job Title:** Principal Technical Consultant
Health: Excellent **Marital Status:** Married

Profile

I am a highly experienced IT professional. I have experience of working within several industries including financial services and education. I am able to understand business concepts from a variety of different industry sectors with little prior knowledge. As a technical architect, I can choose from a variety of technologies to apply to the problem at hand. I have several years experience dealing with customers throughout the lifetime of projects, from initial requirements gathering to user acceptance testing and support. I am used to working with people from all levels of our customers' organisations. I have overall responsibility for R & D and evaluating new technologies within MSM. My objectives are to continue to learn, to improve self-knowledge and to provide our customers with the best solutions possible.

Key Skills

I readily tackle issues that cross business and technical boundaries. My technical skills include:

HTML	6½ years	Expert
XML	6 years	Expert
UML	3½ years	Proficient

Employment

November 1998 to date *full-time* Principal Technical Consultant, Management Systems Modelling Ltd. City of London; Bristol; Exeter
 I joined as a Developer in November 1998, gained promotion to Technical Team Leader in March 2001 and more recently to Technical Manager in February 2002. The role was renamed in 2006 to better reflect how I spend my time.

August 1997 to November 1998 *full-time* Software Engineer for Kudos Software Ltd Salcombe, Devon Reason for Leaving: Improved career prospects at MSM.
 Kudos is a software house providing stock control and point of sale software to the marine trade. My job involved redevelopment of their existing DOS-based product to Windows. Technologies used included Delphi 3 and Access 97.

Training

January 2008, C# and ASP.NET training. Intensive study leading to upgrade of MCAD qualification to MCPD

January 2004, Dealing With Difficult Employees, Skillpath, London.

November 2003, C# and ASP.NET training. Intensive week of study leading to an MCP qualification.

February 2000, Installation and Configuration of Apache, Learning Tree, London.

June 1999, Introduction to Oracle, Learning Tree, London.
