

MSM Software helps to thank St. Peter's Hospice with £500 donation

14 January 2010 – Thanks to the generosity of MSM Software, Andy Strange, of Hanham, was today given the opportunity to thank staff at St. Peter's Hospice for the months of care and support provided to his father, who sadly passed away last year after losing his battle with Cancer.

As part of MSM Software's annual customer satisfaction survey, a donation of £500 to a charity of the winner's choice was used to incentivise participation. Andy's company, Kbase Connect Ltd, was drawn from the hat at random.

Andy had no hesitation in selecting St. Peter's Hospice and comments, "I'm very pleased to have been given the opportunity, through MSM, to donate this money to St Peter's Hospice and in doing so give something back to the organisation which gave so much support to my father.

"I especially want to thank Vanessa, who not only provided nursing support during dad's final months, which enabled him to remain at home, but also helped him deal with day-to-day tasks like local authority paperwork. I feel that we will never be able to thank Vanessa and her colleagues at St Peter's Hospice enough but I hope this donation goes some way towards expressing our gratitude for their warmth, compassion and unwavering dedication during a very difficult time."

Thomas Coles, MD of MSM, adds, "It's wonderful to be in a position to help make a small yet significant contribution to such a worthwhile local cause. Andy is proof of the difference St. Peter's Hospice makes to hundreds of families. Being able to support the charity to do this for others is definitely good for the soul and we fully intend to provide this opportunity to our customers again next year."

MSM Software is based in Bristol, with offices in London, Exeter and Dublin, and provides quality individual business solutions through bespoke software applications and database development for a wide range of private and third sector organisations.

ENDS

About MSM

Established in 1998, MSM has since expanded its reach across England and more recently Ireland, with offices in London, Bristol, Exeter and Dublin. The philosophy of the company is to provide quality individual business solutions through bespoke software and database development, in order to forge long-term strategic partnerships with its clients.

All MSM staff are permanently employed in the UK and are graduates with more than five years commercial experience. They are qualified as, or working towards, Microsoft Certified Professional Developer or better. Each member of staff is checked by the Criminal Records Bureau which allows MSM to work on sensitive matters.

MSM believes in investing in its team and its training budgets are double the industry average. MSM achieves the highest standards by applying its quality management system (QMS), Quality Solved, to all projects. In addition to careful specification, high quality development and rigorous testing, MSM aims for the highest possible quality in its dealings. The MSM policy is to only take on orders that it can deliver using available resources to ensure maximum commitment to projects and to meet its guarantee to deliver to agreed deadlines.

About St. Peter's Hospice

St Peter's Hospice is Bristol's only adult Hospice, caring and supporting patients in Bristol and surrounding areas with terminal illnesses, usually cancer. Our commitment is to improve the quality of life of patients while extending care and support to their families and loved ones. All of the Hospice's patient services are free of charge. Last year we cared for over 2,000 patients and supported over 6,000 family members including children. 85% of the care was provided in patients' homes. The cost of this service is over £6 million a year and we can only do this work because of the support of the community and businesses.
